

TENSION SPRINGS

We are a leading Manufacturer of TENSION SPRINGS in the UK providing nationwide to the Manufacturing Sector.

Our Tension springs are guaranteed and manufactured to the highest standards of quality, and supplied with a letter of conformance. UK Spring Supplies can supply springs for all your requirements. Our manufacturing utilizes the latest CNC spring coiling machines for total automatic manufacturing.

UK SPRINGS SUPPLIES TENSION SPRINGS MANUFACTURED to your specifications, for example drawings, samples.

Helically wound to oppose resistant forces, extension springs have consistent mechanical energy to return to its no-load, compressed position. The ends of the spring are attached to components intended to move apart, with the extension spring providing a reliable return force.
